Course Description:

“Discovering Jesus in His Jewish Context” is a 12-day course in Israel in which participants have the opportunity to rediscover Jesus (Yeshua) and the Land of the Bible in profound ways by engaging the geography, archaeology and Jewish context of Jesus and the Land of the Bible.

The program allows Bible teachers, pastors, mission workers, and theology students to learn about the land of the Bible with first hand experience. Participants will gain a deeper understanding of the biblical text, the Jewish roots of the Christian faith, and the social and religious context during the time of Jesus and the early church. Students will learn to read the Bible afresh through the prism of ancient Jewish and Christian perspectives. Two goals of this course are to root the Christian story in the Land of the Bible and bring the Bible to life in new and powerful ways, with the ultimate goal to know Jesus and the Bible of the 1st century (the Older Testament) better in order to follow Him more fully as Messiah. The course is designed to challenge the student’s conceptions and deepen their understanding of the NT within its context and the application for today.

The course also uses the modern Jewish context as a case study to look at how the message of Jesus can reach different cultures today. As part of the program, participants will meet local Messianic and Arab believers, gaining an understanding of outreach and ministry needs in the Land and an inside perspective of the theological and political challenges that local believers

face. Taught by Jerusalem Seminary and Caspari Center faculty and a network of local expert lecturers, “Discovering Jesus” provides an invaluable experience for those studying and communicating the Word of God.

Course Structure:

This course will have three parts:

1. pre-trip section that will consist of one live zoom session (April 12th, 2026);
2. 10-day week study-tour in the land
3. series of lectures in person during the study-tour

Learning Outcomes:

Students will be able to:

1. Articulate the value of the perspectives of literature, language, and the land for understanding the life of Jesus.
2. Demonstrate the ways in which the Land of the Bible functions not only as a “Fifth Gospel” (to quote Jerome) but also as an integral part of the story of the Bible.
3. Assess the complexities of the realities of the Land of the Bible today.
4. Evaluate the place of space in theology, the potential role(s) of the Land in spiritual formation.
5. Defend the value of both study and practice, the integral place of knowledge and interpersonal relationships.

Textbooks:

- **A “Compilation of Readings,”** generally tied to the lectures, will be provided upon arrival.
